Marabu products - compliance with heavy metal limit value required by packaging directive 94/62/EC (in the current version)

To whom it may concern,

We herewith confirm that in the manufacture of our products, supplied by Marabu GmbH & Co.KG, lead or lead compounds, cadmium or cadmium compounds, chrome VI compounds or mercury or mercury compounds or raw materials containing these substances are not used as intentionally added ingredients.

Thus, we assume that our products are in compliance with the sum heavy metal limit of 100 ppm for the four heavy metals, as required by the packaging directive 94/62/EC.

The presence, however, of traces of these substances in the products coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded.

Kind regards,

i.A.
Dirk Friedrich
Senior Manager
Product Safety
