### Compliance of Marabu Products with Directive 2011/65 (RoHS), in the current version

To whom it may concern

We herewith confirm that in manufacturing of our products manufactured in Tamm (Germany), lead or lead compounds, cadmium or cadmium compounds, chrome VI compounds, mercury or mercury compounds, polybrominated biphenyls or polybrominated diphenyl ethers, bis(2-ethylhexyl) phthalate, butyl benzyl phthalate, dibutyl phthalate and diisobutyl phthalate, or raw materials containing these substances, according to their chemical constitution, are not used as intentionally added ingredients.

Thus, we assume that all our products are in compliance with the requirements of EC directive 2011/65, in the current version. The presence, however, of traces of these substances in the product coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded.

Kind regards,

i.A.  
Dirk Friedrich  
Senior Manager  
Product Safety
